

KABIR KURRA

Galway || +353 899438063 || Kabirkurra13@gmail.com || [LINKEDIN](#) || [GITHUB](#) || [PORTFOLIO](#)

Skills

- **CyberSecurity and Risk** : **Risk Assessment**, Risk Register, **ISO 27001**, NIST CSF, CIS Controls, **GDPR**, Third-Party Risk Management, Security Governance
- **Security Tools**: **Splunk**, Wireshark, **Nessus**, Microsoft Defender, Kali Linux
- **Technical Skills**: Python, **SQL**, Linux, Git, **Cloud Fundamentals**(AWS)
- **Technical Tools**: **Git/Github**, JIRA, Jenkins, Postman, **Docker**
- **Soft Skills**: **Project Management**, Public Speaking, **Time Management**, Event Management

Experience

- **Cybersecurity Intern** (09/2026-Present)
ARM INNOVATIONS Pvt Ltd.
 - Conducted IT and cyber risk assessments across enterprise systems, identifying vulnerabilities and aligning mitigation strategies with organizational risk tolerance.
 - Assisted in evaluating security controls against industry compliance frameworks and standards, including ISO 27001, NIST CSF, and SOC 2..
 - Collaborated with engineering teams to perform threat modeling and security posture reviews across software architectures and CI/CD pipelines.
 - Maintained and updated organizational Risk Registers, tracking vulnerability remediation lifecycles and Key Risk Indicators (KRIs).
 - Supported compliance gap analyses, internal audits, and third-party risk management (TPRM) reviews to ensure continuous governance.
- **Software Engineer** (11/2025-08/2026)
Moglix
 - Collaborated with cross-functional teams to analyze business processes, **identify operational risks**, and improve **system reliability** for enterprise financial platforms.
 - Supported secure implementation of **AI-enabled solutions** while maintaining data integrity and operational efficiency.
 - Participated in **requirement analysis**, issue resolution, and process improvement initiatives within a regulated fintech environment.
 - Developed data-rich dashboards using **Angular**, implementing dynamic charts, real-time updates, and modular components, which improved data visibility and decision-making efficiency **by 35%** for internal stakeholders.
 - Collaborated closely with the **AI/ML** team to integrate **AI chatbots** and **AI-powered** content analyzers into the frontend, enabling real-time insights and intelligent user interactions, leading to a **25%** reduction in support queries and a **30%** increase in feature adoption
- **Software Engineer – AI & Full Stack** (07/2024-11/2025)
Venuelook
 - Engineered scalable **web scraping tools** in Python to collect and enhance venue-related data from diverse web sources across India and Singapore.
 - Developed **NLP pipelines** for semantic search, entity extraction, and query understanding, significantly improving internal tools and user experience.
 - Utilized **OpenAI APIs** and **LangChain** to automate data categorization, perform text enhancement and generate intelligent suggestions for listings
 - Single-handedly resolved a complex server-side rendering issue in Next.js, leading to a **35%** reduction in page load times and a **25%** increase in user retention on high-traffic pages..
 - Integrating and optimizing APIs in a Next.js environment, resulting in a **35%** reduction in server response times and a **30%** improvement in data retrieval efficiency, enhancing overall application performance.
 - Developing and managing complex MySQL database queries, streamlining data operations and cutting query execution times by **30%**, leading to a **20%** improvement in application response time and overall system reliability.

Projects

- **PropBotix** ([LINK](#))
Developed an AI-driven real estate platform using **Next.js**, **Python**, **MySQL**, and **LangChain** with **LLM** for dynamic user interaction. Engineered an intelligent agent pipeline for personalized property recommendations, leveraging **vector embeddings**, **RAG (Retrieval-Augmented Generation)**, and real-time **natural language querying**.
- **Venuelook.com** ([LINK](#))
Developed high-traffic pages for Venuelook.com using Next.js for frontend and MySQL with optimized dynamic content and API-driven components.
- **3D Portfolio** ([LINK](#))
Crafted a responsive 3D portfolio website with **React.js** and **Three.js**. Employed **Tailwind** CSS for efficient styling, integrating email functionality via email.js for seamless communication.

Certifications

Cyber Threat Management
Cisco
Certificate Link – [Cyber Threat Management](#)
Introduction to Cybersecurity

09/2026

09/2026

Cisco
Certificate Link – [Introduction to Cybersecurity](#)
ISC2 Candidate
Isc2
Certificate Link – [ISC2 Candidate Certificate](#)

Education and Training

Master of Science | Cybersecurity Risk Management
University of Galway

09/2026- Present
Galway, Ireland

Bachelor of Technology | Computer Science and Engineering
Deenbandhu Chhoturam University of Science and Technology
CGPA – 7.6

06/2020-06/2024
Haryana, India
