

KABIR KURRA

(201301) || 9729760279 || Kabirkurra13@gmail.com || [LINKEDIN](#) || [GITHUB](#) || [PORTFOLIO](#)

Skills

- **Languages:** Python, C++, JavaScript, CSS, HTML
- **Frameworks:** OOP, GraphQL, Tailwind.Css, Bootstrap, React.Js, Next.js, FastAPI
- **AI/ML & Data:** Web Scraping, NLP, Pandas, Numpy, OpenAI, LangChain, LLM
- **Tools:** Git/Github, SQL, JIRA, Jenkins, Postman, Docker
- **Platforms:** Linux, Web, Windows, GithubWorkflow, Trello
- **Soft Skills:** Project Management, Public Speaking, Time Management, Event Management

Experience

➤ Software Engineer – AI & Full Stack

(07/2024-Present)

Venuelook

- Engineered scalable **web scraping tools** in Python to collect and enhance venue-related data from diverse web sources across India and Singapore.
- Developed **NLP pipelines** for semantic search, entity extraction, and query understanding, significantly improving internal tools and user experience.
- Utilized **OpenAI APIs and LangChain** to automate data categorization, perform text enhancement and generate intelligent suggestions for listings
- Single-handedly resolved a complex server-side rendering issue in Next.js, leading to a **35%** reduction in page load times and a **25%** increase in user retention on high-traffic pages..
- Integrating and optimizing APIs in a Next.js environment, resulting in a **35%** reduction in server response times and a **30%** improvement in data retrieval efficiency, enhancing overall application performance.
- Developing and managing complex MySQL database queries, streamlining data operations and cutting query execution times by **30%**, leading to a **20%** improvement in application response time and overall system reliability.

➤ Software Engineer Intern

(01/2024 – 06/2024)

Venuelook

- Worked collaboratively within a team environment to integrate frontend components seamlessly with backend systems, ensuring smooth data flow and a consistent user experience, which led to a **15%** increase in overall speed, a **30%** reduction in loading time, and a **25%** decrease in user-reported issues
- Participated in Agile/Scrum methodologies, contributing to sprint planning, code reviews, and troubleshooting sessions, while also creating lightweight APIs that improved response times by **35%** and reduced server load by **20%**.

Projects

○ **PropBotix** ([LINK](#))

Developed an AI-driven real estate platform using **Next.js**, **Python**, **MySQL**, and **LangChain** with **LLM** for dynamic user interaction. Engineered an intelligent agent pipeline for personalized property recommendations, leveraging **vector embeddings**, **RAG (Retrieval-Augmented Generation)**, and real-time **natural language querying**.

○ **Venuelook.com** ([LINK](#))

Developed high-traffic pages for Venuelook.com using Next.js for frontend and MySQL with optimized dynamic content and API-driven components.

○ **3D Portfolio** ([LINK](#))

Crafted a responsive 3D portfolio website with **React.js** and **Three.js**. Employed **Tailwind CSS** for efficient styling, integrating email functionality via email.js for seamless communication.

○ **Blog-app** ([LINK](#))

Developed a full-stack project using **Cloud.Appwrite** for backend services, ensuring robust data management and authentication. Built a dynamic UI with **React.js** and **Vite** for seamless interaction. Employed **Tailwind CSS** for efficient styling. Implemented key features like post creation and retrieval, showcasing proficiency in CRUD operations and **RESTful API** integration.

Certifications

Python Full-Stack development

09/2024

Uncodeme

Certificate Link – [Python Full-stack development](#)

AWS Solution Architect

01/2025

Forage

Certificate Link – [AWS Solution Architect](#)

Education and Training

Bachelor of Technology | Computer Science and Engineering

06/2024

Deenbandhu Chhoturam University of Science and Technology

Sonipat, Haryana

CGPA – 7.6
